

Ready, set, get green!

Shorenstein Realty Services, L.P. continues our recycling program...

Did you know that as much as 90 percent of the waste in an average office could be recycled? Think of all the things we throw away every single workday: Office paper, Cardboard, Newspapers, Water bottles & Soda cans.

These materials are valuable. We can collect these recyclables and repurpose them into new products. In the process, we can achieve two outstanding goals - reducing your office's carbon footprint and becoming more efficient.

Please keep these key points in mind for a successful and impactful recycling program:

- **Keep it simple.** Plastic bottles, aluminum cans, steel cans, cardboard and paper will go into the single-stream recycling containers with the **clear liners** in your office space. Non-recyclable materials should go into the containers with the **black liners**. Please see the included signage.
- **Keep it clean.** A single piece of contaminated or dirty material can ruin an entire load. Here are some of the things that **should never be put into our recycling bins**: food waste, food wrappers, foam, plastic bags, used food and beverage containers, plastic utensils and shrink wrap/bubble wrap.
- **Keep it going.** Sustainability starts with each of us, so all must make a concerted effort to learn proper recycling procedures. With full participation from each employee, 1818 Market Street can have a positive impact on our environment. Your individual commitment to this building-wide effort is what will make our recycling program work.

Thank you for your cooperation!

Your local Waste Management Team
